CLASSIFICATION TITLE: WASTEWATER TREATMENT PLANT OPERATOR

BARGAINING UNIT: CIV BARGAINING  CODE NUMBER: 6520
PAY RANGE CODE: 08105  REVISION DATE: 2/27/20

NATURE OF WORK:
This is skilled work in the operation of wastewater treatment plant equipment on an assigned shift. Work involves responsibility for the operation, routine servicing, and care of a variety of plant equipment. Operation of the equipment includes reading meters and gauges, recording measurements, operating pumps, and maintaining chemical mixes. Work is reviewed by the assigned supervisor through inspection, tests, and observation of plant effectiveness.

ESSENTIAL FUNCTIONS: (Any one position may not perform all the duties listed, nor do the listed examples include all the duties that may be performed in positions allocated to this class.)

Operates and monitors wastewater treatment plant equipment using pre-determined procedures.

Reads meters and gauges in order to measure flow, functions, temperatures, pressures, and chemical levels, records measurements on shift logs and charts, and may also replace flow meter charts.

Collects samples for laboratory testing and analysis following pre-determined procedures.

Adjusts chemical and water mix, sludge filtrations systems, and pumps as necessary.

Operates sewage and sludge pumps, skims primary tanks, transfers grease to holding tanks, washes tanks, and draws sludge.

Operates power generating equipment and compressors for the storage of gases and recovery of energy.

Performs routine cleaning and servicing of equipment to include lubricating equipment, checking bearings and pumps, closing gate valves, removing rags and grit from pumps, refilling and replacing chemical containers, and draining condensation.

Performs air readings with gas detectors to determine if equipment is functioning properly and to identify potentially hazardous conditions.

Maintains regular job attendance in accordance with a schedule established for the position by the supervisor.
Performs other related duties as assigned or as the situation dictates within the scope of this classification.

**REQUIRED KNOWLEDGE, SKILLS, AND ABILITIES:**

Knowledge of and ability to operate a computer or other technology using standard or customized computer or systems software applications appropriate to the assigned tasks.

Knowledge of functions and servicing requirements for wastewater treatment equipment.

Knowledge of the processes involved in the treatment and disposal of wastewater.

Knowledge of the standard practices, tools, equipment, and materials used in the maintenance of pumping equipment.

Ability to learn occupational hazards and safety precautions.

Ability to use audio and visual means in order to monitor equipment for efficient operation.

Ability to accurately measure gauges and record readings.

Ability to use basic hand tools such as wrenches and hammers.

Ability to inspect operating mechanical and electrical equipment to detect flaws and defects in operation.

Ability to perform mathematical computations to include addition, multiplication, division, and subtraction.

Ability to learn and adapt to advances in computer and electronics device technology and software.

Ability to understand oral and written instructions.

Ability to adhere to safety policies, procedures, and guidelines.

Ability to establish and maintain effective working relationships with fellow employees and members of the general public.

Ability to be placed on call and work overtime when necessary as required.

**EDUCATION AND EXPERIENCE:** (The knowledge, skills, and abilities above may be acquired through, but are not limited to, the following combination of education and/or experience.)

High school graduation or its equivalent

AND
Experience in the operation and minor maintenance of mechanical and electrical equipment.

**SPECIAL QUALIFICATIONS**

Must possess and maintain a class ‘O’ driver’s license.

Must maintain a Wastewater Treatment Plant Certificate, Class II, in accordance with Nebraska Department of Environmental Quality Wastewater Certification Act.

**WORKING CONDITIONS:** (The conditions herein are representative of those that must be met by the employee to successfully perform the essential functions of the job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential job functions.)

Working conditions consist of exposure to industrial building conditions, extreme temperatures from below 32 degrees to above 100 degrees, vibrating machinery, moving mechanical parts, electrical currents, confined spaces, humidity, fumes, odors, dust, mist, gases and chemicals. Noise levels may require shouting in order to be heard.

**EQUIPMENT OPERATION:** (Any one position may not use all of the tools and equipment listed nor do the listed examples comprise all of the tools and equipment that may be used in positions allocated to this classification.)

- Electric Control Panels
- Electrical Motors
- Hydraulic Equipment
- Gate Controls
- Grease Grinder
- Gas Detector
- Augers
- Air Scrubbers
- Blowers
- Vat Mixer
- Air Compressor
- Motorized Strainers
- Clarifier Sweeps
- Scott Air Packs
- Snow Removal Equipment
- Pumps
- Power Generators
- Valve Controls
- Automatic Sampler
- Bar screens
- Grit Washer
- Conveyor Belts
- Air Handlers
- Tank Mixer
- Gas Compressor
- Collectors
- Computer
- Ladder
- Lawn care Equipment
- Drain Cleaning Equipment
